IMPORTANT TREASURY BOARD BARGAINING UPDATE

Treasury Board and PSAC have agreed to engage in exploratory discussions with the objective of reaching early collective agreements. The bargaining teams from the last round are being reconvened to start talks on September 21st or 22nd.

The early bargaining process is an opportunity to provide economic certainty and improve working conditions for our members in this difficult economic climate.

John Gordon – National President

You decide

If the early bargaining process leads to tentative agreements, members will vote on their ratification.

If no agreements are reached through this process, we will proceed with the regularly scheduled bargaining process in early spring of 2011.

What can we achieve?

While we expect improvements in economic benefits, we are also focused on non-economic improvements to working conditions.

During the last round of bargaining we achieved concrete results on: national rates of pay; occupational group structure and classification review; seniority and a new pay grid for the Border Services group; as well as a number of other group specific improvements.

Your bargaining teams will be meeting in the coming days to prioritize key outstanding demands – with the goal of building on the achievements made in the last round of bargaining.
