**Public Service Alliance of Canada**

## PSAC begins bargaining with Treasury Board

Talks are underway between PSAC bargaining teams and Treasury Board.

We have agreed to engage in bargaining well before the expiry of collective agreements in an effort to ensure economic certainty and improved working conditions for our members.

Members elected to bargaining teams from the last round of negotiations have been busy reviewing the Program of Demands. They are also looking at outstanding demands from the last round as well as emerging issues to set priorities for this round.

Members will have an opportunity to vote on any tentative agreement that may be reached. If agreements are not achieved, the regular bargaining process will apply.

PSAC is committed to achieving fair collective agreements and protecting public services.

Updates will be provided as negotiations continue. For more information, check our *Frequently Asked Questions* at [psac-afpc.org/tb](http://psac-afpc.org/tb) or e-mail [TB-Q&A@psac-afpc.com](mailto:TB-Q&A@psac-afpc.com)
